

Sushma Kunjangada Arun

Software Engineer

Location: Boston, MA, USA | Email: sushmakunjangada@gmail.com | Ph #: (201) 971-1854 | [LinkedIn](#)

SUMMARY:

Software Engineer with **4+ years of experience** building scalable, secure applications in **banking** and **insurance domains**. Expertise in **Python (FastAPI)**, **React.js**, and **microservices architecture**, with hands-on experience in **cloud migration to AWS** and transforming **monolithic systems into cloud-native solutions**. Skilled in designing high-performance APIs, optimizing backend systems, and delivering seamless user experiences. Proficient in **CI/CD (Jenkins, GitHub Actions)** to enable reliable and efficient deployments.

SKILLS:

Programming Languages	Python, JavaScript, SQL
Backend Development	FastAPI, Django, RESTful APIs, Microservices Architecture
Frontend Development	React.js, HTML5, CSS3, JavaScript (ES6+)
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda, CloudWatch), Docker, Kubernetes, CI/CD (Jenkins, GitHub Actions)
Databases	PostgreSQL, MySQL, MongoDB
Security & Practices	JWT/OAuth, Secure Coding, OOP, Data Structures & Algorithms, Design Patterns
Methodologies	Agile (Scrum), SDLC

EXPERIENCE:

Santander Bank, Boston, MA

Feb 2025 – Dec 2025

Software Engineer

- Migrated **legacy banking applications to AWS (EC2, S3, RDS, Lambda, CloudWatch)**, reducing infrastructure costs by **25%** and improving system availability
- Transformed **monolithic banking systems into microservices architecture** using **Python (FastAPI)**, reducing deployment time by **40%** and improving fault isolation
- Designed and developed RESTful APIs and microservices using FastAPI for account management, payments, and transaction processing, handling high-volume requests with improved response times
- Built responsive and high-performance **React.js frontend applications**, reducing page load time by **30%**
- Containerized applications using **Docker** and **Kubernetes** for container orchestration, improving deployment consistency
- Implemented **CI/CD pipelines using GitHub Actions**, reducing manual deployment effort and increasing release frequency from weekly to **multiple deployments per week**

Happiest Minds Technologies Limited | Bangalore, India

Nov 2020 – Nov 2023

Software Engineer

- Improved **policy management and core insurance workflows** by developing and optimizing **RESTful APIs using Python (FastAPI)**, reducing response latency and operational overhead
- Enabled scalable **customer onboarding and policy issuance** by designing **API-driven integrations with SQL databases**, supporting increased transaction volume across insurance systems
- Enhanced user experience for **agents and customers** by building **React UI components**, reducing page load time by **25%** and improving API interaction performance
- Increased reliability of **insurance applications to 99.9% uptime** by deploying and monitoring services on **AWS (EC2, S3, RDS, Lambda, CloudWatch)**
- Accelerated release cycles for **core modules** by implementing **CI/CD pipelines using Jenkins**, improving deployment speed and consistency

PROJECT EXPERIENCE:

Cloud-Native Web Application on AWS

Sep 2025 – Dec 2025

- Built REST APIs using FastAPI with Amazon RDS (MySQL) to support a scalable backend system
- Provisioned AWS infrastructure using Terraform (VPC, EC2, ALB, Auto Scaling, S3, RDS, Route 53, IAM) for high availability
- Implemented CI/CD pipelines using GitHub Actions and integrated Lambda and SNS for event-driven workflows

Safe Harbour Youth – Full-Stack Web Application (React, Node.js)

Jan 2024 – Apr 2024

- Built a full-stack web application using React, Node.js, and MongoDB for anonymous reporting and case tracking through role-based dashboards
- Added role-based access control for REST APIs and integrated Stripe for donation processing

CERTIFICATIONS: AWS Certified Solutions Architect – Associate (In Progress)

EDUCATION:

Northeastern University - Boston

Jan 2024 – Dec 2025

Master of Science in Information Systems

GPA: 3.7

Coursework: Algorithms, Cloud Computing, Database Design, Application Development

Coorg Institute of Technology - India

Aug 2016 – Oct 2020

Bachelor of Engineering in Computer Science & Engineering

GPA: 8.0
